

Alphanumeric Large display **ALAN 50/100/120**

Rugged, versatile and reliable

Alphanumeric LED-Display: ALAN 50/100/120

Technical data

Application area:	Indoor
Technology:	LED-Dot-Matrix
Character heights:	50mm, 100mm or 120mm
Reading distance:	To 30 m
Character colour:	Monochrome (Red or yellow or green); Three-coloured: Red, green and yellow
Deliverable interfaces :	RS 232, 485, Ethernet TCP/IP, Profibus DP, InterBus, CANBUS, Parallel Further interfaces on inquiry
Number of display lines:	1 to 9
Number of characters per line:	5, 10, 15, 20, 25 and 30; Around factor approx. 1,5 larger at proportional font
Ticker function:	Yes
Deliverable executions:	Case steelsheet IP54 / IP65 (Opt. ALU / Stainless steel); Front mounting; single components
Power supply:	230VAC, optional 24VDC
Cable entry:	Two cable glands
Temperature range:	Storage / Operating: -25°C to +60°C
LED durability:	Approx. 100.000h

Alphanumeric LED-Display: ALAN 50/100/120

General

The alphanumeric LED-Large displays of the series "ALAN" allow the visualization of texts. They are basically applicable for indoor use, but can also find use in the outdoor area only with sun protection (No direct sun light). The LED Large displays of the series "ALAN" are deliverable with serial or parallel interface.

The alphanumeric Large displays of the series "ALAN" are deliverable in the following executions:

- Single- and multi-line
- Execution case with / without frontdoor (single- and double-sided; optionally even multi-sided)
- Execution front mounting
- Single components (incl. display modules, control unit, power supply)
- With character heights 50mm, 100mm and 120mm
- Character colours: Single-colour Red, yellow or green; Three-coloured Red, yellow and green

The modular system structure of the series "AFN" allows a economical customization of the display type to various type wishes.

Application areas

- Text displays for employees informations
- Malfunction indication displays
- Production data displays
